

[ITNAmerica](#)® is pleased to welcome its newest affiliate, [ITN*Las Vegas Valley*](#). The innovative transportation service for seniors and adults with visual impairments is being launched in the City of Henderson — Nevada's second largest city and one with a heavy concentration of older adult residents.

Co-founder Nancy Sprague said, "We were motivated by the two tragic accidents involving senior couples that drove off the parking deck of the Golden Nugget garage, as well as other news stories of accidents linked to senior drivers." Co-founder Fran Smith added, "With [ITN*Las Vegas Valley*](#), older people are independent, our communities are safer and more inclusive, and adult children don't need to leave work to provide rides."

To learn more about bringing the Independent Transportation Network® to your community, please visit [ITNAmerica](#) or call 207 857-9001.
